

ACT announced, last year, that COMPASS testing would be discontinued by November 30<sup>th</sup>, 2016. The Arkansas Department of Higher Education has worked diligently to determine a suitable placement test to replace COMPASS. It was determined that ACCUPLACER would be the state's new placement test. For more information about the ACCUPLACER, please see below.

## What is ACCUPLACER?

ACCUPLACER tests your knowledge in math, reading, and writing. Over 1,500 institutions administer ACCUPLACER tests as part of the enrollment process. These tests help identify your strengths and needs in each subject area. ACCUPLACER [interactive online learning tools](#) are available to help you sharpen your skills. The academic advisers and counselors at your college or technical school will use your ACCUPLACER test results along with information about your academic background, goals, and interests to help you take courses that match your skill level and give you the best opportunities for success.

## How Does ACCUPLACER Work?

Thanks to ACCUPLACER's online format, the test questions are based on your responses to each question you've already answered. Questions increase or decrease in difficulty depending on your answers as you work through the test. ACCUPLACER tests are untimed, so you can move at a comfortable pace. It's important to give yourself enough time to do your best and complete the test because your results are the key factor in determining the courses you can take. Your results will be available immediately after you take the test. It's a good idea to ask your academic adviser about your college's or school's testing policies and procedures. That way, you're prepared and can plan accordingly.
